

International Conference on Individual Monitoring of Ionising Radiation IM2022

AND

Neutron and Ion Dosimetry Symposium NEUDOS-14
25-29 APRIL 2022 Kraków, Poland

SPONSORSHIP OPPORTUNITIES

International Conference on Individual Monitoring of Ionising Radiation (IM2022)
and
Neutron and Ion Dosimetry Symposium (NEUDOS-14)
25-29 April 2022 Kraków, Poland

We are pleased to cordially invite you to participate as a Sponsor or Exhibitor in a combined event: International Conference on Individual Monitoring of Ionising Radiation (IM2022) and Neutron and Ion Dosimetry Symposium (NEUDOS-14). We will be grateful for your support which will allow us to organize the meeting better and will significantly contribute to the success of the entire forum.

For the first time, both such important events will be held together, which increases the possibility of reaching a wider group of scientists from research units, as well as regulatory authorities, laboratories and industry around the world in fields/aspects related to individual monitoring and dosimetry of neutrons and ions.

International Conference on Individual Monitoring of Ionising Radiation (IM2022) and Neutron and Ion Dosimetry Symposium (NEUDOS-14) is an excellence opportunity for Sponsors and Exhibitors to present news from the world of science and technology to the broad scientific and business community.

The conference and technical exhibition will be held in Auditorium Maximum, one of the best conference locations in Kraków due to its modern character, location near the heart of the old town and proximity to many hotels. The Auditorium Maximum offers excellent conditions for the commercial exhibitors. The Sponsors and technical exhibition will be hosted in an area where the refreshments and the breaks will also take place, reached from the main conference room, thus providing direct access to participants.
